

# Vari Flow™

## Button drippers

### Applications

- Suitable for trees with high water requirement
- Recommended for sandy soils and desert conditions

### Structure and features

- Manufactured with durable virgin plastic
- Adjustable discharge according to the water requirements and growth stage
- Total shut-off option
- Nominal operating pressure of 1 bar, but can be used at low pressures
- Designed to prevent dripper blockage in desert conditions
- Colors: black, green, blue (please specify when ordering)

### Technical data

- Adjustable flow rate: 0-100 l/h at 1.0 bar
- Filtration requirement: 120 mesh, 130 micron
- Required punch diameter: 2.9 mm

### Technical data

Maximum Discharge	
(l/h)	(gph)
100	26.45

\* At an operating pressure of 1kg/cm<sup>2</sup> (14 psi).
