

Vari Flow

Adjustable button dripper

APPLICATIONS

- Suitable for trees with high water requirement
- Recommended for sandy soils and desert conditions

STRUCTURE AND FEATURES

- Manufactured with durable virgin plastic
- Adjustable discharge according to the water requirements and growth stage
- Total shut-off option
- Nominal operating pressure of 1 bar, but can be used at low pressures
- Designed to prevent dripper blockage in desert conditions
- Colors: black, green, blue (please specify when ordering)

TECHNICAL DATA

- Adjustable flow rate: 0-100 l/h at 1.0 bar
- Filtration requirement: 130 micron, (120 mesh)
- Required punch diameter: 2.5 mm
